Hi everyone. We are receiving many complimentary comments in terms of the new ACERN newsletter which suggests we are on track. If there is anything you want to suggest in terms of information you feel will be of benefit, we will be please to hear from you.

We have two new members of the ACERN support team Leigh Kerr offers counselling and support and has her own group T.A.L.K. group mentioned in the first newsletter. Also researcher/experiencer Peter Slattery author of 4 books and his own radio show.

[www.petermaxwellslattery.com/the-peter-maxwell-slattery-show.html](http://www.petermaxwellslattery.com/the-peter-maxwell-slattery-show.html)

Peter has also been invited to join the new organisation **FREE** (*Foundation for Research into Extraterrestrial Encounters*) which launched officially on June 1st 2014. (see link at the bottom of ACERN home page.) He will also be hosting a radio show for FREE, with Giles Campbell and occasionally myself including interviews with contactees/experiencers and researchers.

**"The FREE Show with Peter Slattery"**

FREE is an International organisation which provides multidisciplinary support to those having encounters. FREE will explore the quantum reality creating a bridge between science and spirituality.

FREE's mandate is broad in terms of experiences and will embrace the abductee, contactee, experiencer, starseed/kid, hybrid, walk-in or Indigo.

Whatever and however this manifests for the individual. The shock to the human psyche can be one of fear, but that can change with understanding and information.

Contact can occur in multiple ways through sighting of a UFO, NDE's (*Near Death Experiences*), OBE (*Out of Body Experiences*) a major life shift, through illness etc.

Many individuals receive 'downloads' which incorporate science, spirituality, the many different types of contact and the many different beings that are communicating with us .

Within FREE the multidisciplinary team we will try to quantify and qualify the patterns of such interactions and through this, understand the shift taking place in human consciousness.

It has been inspiring as the vision for FREE unfolded we were approached by numerous respected names in Ufology and human Consciousness. Although co-founder and co-director of FREE. ACERN is very much an on-going resource and will remain so, FREE is complementary to what we offer with ACERN.

Welcome again to our two new team members. Peter Slattery came to visit us recently and decided he loved the energy and the 'busy' skies" in Agnes Water !!! So he went home and packed his bags. We offer a very warm welcome him. Peter hopes to offer CE5 protocols in Agnes Water the near future, and will be part of the team for the new Awakening Center.

**The FREE website will be live online in the near future.**

## Cairns Trip—Port Douglas Presentations

*By Mary Rodwell*

This is a very quick update regarding my recent trip to Cairns and Port Douglas.

The Port Douglas presentation and the Cairns Public Library events were greeted with enthusiasm and many individuals stayed after the presentation to share and speak with each other.

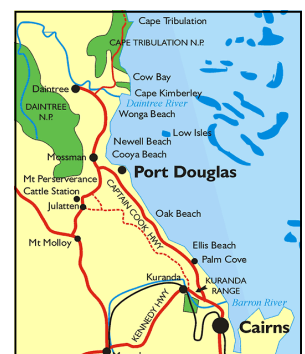

Some attendees had travelled from as far away as Townsville.

I had an invite to present at Innisfail, North Queensland when I return to Cairns again.

I was told that there is a great deal of CONTACT and the location is not far from Tully which is well known for the "Tully Nests" and there have been many sightings close to Townsville.

I was also approached by open minded professionals in from within the human resources

fields, who would like to offer support to experiencers.

**“..there is a portal at the 1770 lookout only 10 minutes from the property.”**

## **“The Meeting Place”** *by Peter Maxwell Slattery*

After being drawn to Agnes Water to visit Mary Rodwell and Giles Campbell (who is an experienter), the opportunity was given to me to live on Giles property of 44 acres in a caravan to pursue what I had been doing for some time, which is Contact Work (otherwise known as CE-5, but what I do is a little different) and to also have like-minded people around and support.

Now Giles was drawn to the town of Agnes Water, and so have others who have visited the area, as there is something about the area. Personally, myself, I had contact

with the Spirit of an Aboriginal Man as soon as I stepped foot on his property. From the energy, to nature spirits, orbs, to elementals to inter-dimensional beings to crafts and unconventional lights in the sky, all have been experienced on the property and in the Agnes Water area, as the veil between worlds is thin in the area and on the property, which many can attest to, the place is a portal.

Over time too, people have had experiences with Metaron on the property and beings who call themselves

the Guardians, which are white Grey type beings. I know from interacting with them, that they guard the portal which the property is on and the surrounding area. Also there is a portal at the 1770 lookout only 10 minutes from the property.

When visiting here before moving in, almost everyone I met here was an experienter. A large amount of people had to move here from not just around Australia, but from around the world, which I found out after talking to a

*Continued on Page 3*

## **“Down the Rabbit Hole”** *continued from Issue 1&2* **By Giles Campbell**

This creature had huge almond big black eyes, and resembled a preying mantis in some respects but there was very little insect about it.

It was very slender, its skin was transparent and I could make out what seemed like blood vessels under the skin which appeared to have tiny balls of light moving through them. I could also make out its skeleton amongst all the other anatomical detail, the skeleton looked almost like an opaque glass. Its head was big and it had what looked like 2 short fleshy antennae on its head, also translucent.

The being had a blue/purple sort of glow to it, it was like a coloured haze around the entire creature. It had slender, long arms, and had these had a very similar appearance to a preying mantis. It

stood completely motionless, staring at me, I had little or no fear at this point, I was fascinated, I just wanted to get as much detail as possible. I decided to speak to it and for some reason I said “hello, can I help you?” (I do remember thinking how I sounded like a sales person, and how utterly ridiculous that must have sounded) Shortly after this it vanished with a flash of white light.

After these two experiences there was a period of 6-10 days where I experienced total peace with understanding of things I now struggle to recall. It was a state of mind like I understood everything but at the same time wasn't sure what it was I understood. I felt a connectedness to everything around me. I really struggled socially for a while as it was almost like I could feel peoples emotions and negativity. I lost my appe-

tite and suffered exhaustion for the following 6 weeks. I also developed a strange debilitating fatigue which would come and go brought on at work, around specific people. These sensations eventually faded and left me very confused and concerned about my mental health.

In December 2010 I was fishing with my friend Simon in the Tasmanian highlands, a lake called Pine Tier. It was not yet dusk and suddenly we both saw a flash of light in the sky, what appeared to be a silver apple seed shape shoot out, flash and streak across the sky. Simon saw the flash he looked at me and said “shit, did you see that?” I said I did both of us were surprised there was no bang or explosion. We lit a fire and started cooking dinner and Simon said “Giles can you see that?”

## **“The Meeting Place”** by Peter Maxwell Slattery - continued

large majority of the people that live in the area.

Being given the opportunity to do what I do, being in service mode and calling in peoples guides, to doing energy work and contact work to help assist those like I am being assisted from beyond to help with the awakening of humanity and healing the earth, I know I am doing what I am supposed to be doing.

I knew for some time what I am now doing, is what I was meant to be doing, but I was waiting for the support which I now have. There is a huge connection between Giles, Brittany (his girlfriend), Mary and many others. In time what's going on behind the scenes will be told if need be, but it's really not important. In saying that, what's important is that the property is

to help others have experiences and to awaken them to their higher self and to have a place and format for experiences to happen if agreed upon by all parties and to help people, help themselves, with tips and tools and services. Also it's a place for support to those having experiences.

Now the reason I call the property “The Meeting Place” is when I was young, an Aboriginal Elder told me of meeting places are where tall thin rocks are. I was told that Aboriginal Tribal elders used to meet at these places and that these locations were called the meeting place. In saying that, this came to mind “The meeting place” when witnessing firsthand what happens on the property.

In time to, the same Spirit of the Aboriginal Man who I first saw when visiting the property visited me again and communicated to me about the place being a meeting place. In time later on too, Brittany came across by chance, the meeting place aboriginal symbol which was the last synchronistic piece I needed to confirm that this place is the meeting place among many other meeting places here on earth and throughout many plans and dimensions.

The “Meeting Place” symbol I have recreated and have added it to the picture here. To visit the property, send me a request for an invite.

Cheers,

**Peter Maxwell Slattery**

## **The AWAKENING CENTER— A Vision for the Future**

I would like to announce a vision. A resource which will offer both acceptance, support, information, complementary healing, training in multidimensional abilities, and conferences.

It is a place where 'Awakening' to Who you really are is celebrated and supported, and resources for the New Children. It is a huge vision, a gem we hope to manifest with your help. If you think this is something you would like to support then please let us know. Its time for us to pull together and be all we can be. It will be located in Agnes Water Central

Queensland.

In the past few years I have been contacted by an overwhelming number of emails from all ages and cultures who have written to me about their 'Awakening ' to who they are and also what they perceive as their 'mission.'

The outcome of this Awakening, has completely changed their lives and they no longer want to participate in their previous lifestyle, as it makes no sense to them and they have a totally different perspective on what matters to them. For a time they can be almost totally obsessed by their Awakening and it can cause havoc in their relationships and not understood by old belief systems as the new understanding changes and transforms their lives they find old friends and priori-

ties change. This may occur by sighting a UFO, a NDE( near death exp) or OBE ( Out of Body experience) for example. Life is changed forever and often family or friends do not understand. This can cause isolation, pain and a feeling they don't belong. Some have a sense they are just too different to be accepted with an awareness of their star heritage.

Whatever the way this understanding occurs its a lonely road if no one understands. The New Children which are born to these families are already Awake to this new paradigm and are teaching the parents. But they too need understanding support and to be listened to. This Center will support the families and the NEW children that have so much to teach us all.

Mary Rodwell

**UFO Research NSW Talk— Mariana Flynn**

Mary Rodwell gave a presentation for UFO Research NSW in Sydney on Tuesday evening 13th May. The event was held at the Club Burwood RSL, Burwood.

Around 44 people turned up. Mary had decided to offer an informal talk and to answer any questions from the audience. This worked very well and she was able to cover areas that she normally did not have time for and this took us down the rabbit hole with her which everyone loved.

Most people are curious about what lies around the corner for planet earth and humanity, since we've all heard the doom and gloom predictions. Mary was able to give a perspective based on what the star children and other contactees tell her. She covered some of the amazing cases she has worked with and she described the establishment of FREE and its aims for unbiased research backed by credentialed scientists.

We are excited to hear about this and wish Mary and the others involved with it every success. Mary also announced that she and her group in Agnes Water hoped to purchase 40 acres for an Awakening Centre, which is a brilliant idea and I could see a few eager faces when she

mentioned this. It resonates with a lot of people.

A number of our members long to be part of an off-grid community with non-materialistic values and a benevolence and love towards all living creatures and Mother Earth. We already know of others planning to do the same sort of thing in NSW. Our members eagerly purchased Mary's book and DVDs.

It is always a pleasure to welcome Mary to Sydney. Before the presentation we had dinner with four of our members, Brad and Souzanna Thornton and also Damien Nott and Liam Freaney, both avid sky watchers, who were eager to meet Mary.

I first connected with Damien last year in March, when I went to Dunedoo to see him. He has continued to astound

us with his UFO footage and Jaime Maussan in Mexico has interviewed him on his program there. He has also appeared on the Today Tonight Show in Perth and Adelaide. Liam is another young man with an extraordinary ability to sense when craft are out there, just like Damien.

They get a feeling to go outside and when they point the camera at the sky, they invariably find a UFO.

On Wednesday night 14th, Mary and I drove to Campbelltown for her presentation for UFO PRSA. It was good to catch up with Dom and Lorraine over dinner and Mary delivered an excellent talk for them on regression hypnosis and its therapeutic usefulness. The two day visit to Sydney flew by far too quickly.
